**Special Instructions**

Use this chart ONLY when playing Pebble Beach, and strong winds are in effect. If calm or moderate winds are in effect, follow the instructions on the board for hole 1.

In addition, each hole will list a Wind Gust Indicator number(s). If the 3rd die number equals a Wind Gust Indicator number, substitute the "Gust" result for the "Dist" result.

NOTE: Short Approach shots between 125-51 yds are subject to Wind Gust effects as well. In all other aspects, these charts are used like the original ASG Wind Charts.
